CURRENT PROJECT– AT RISK CHILDREN EDUCATION

The Educational Center started in 2020 on a full time basis when, due to COVID, the schools were closed. When the schools opened, the students come to our 'After School Center' from 4:30pm to 8:30pm. Teachers helped the students with their homework from Monday to Saturday and volunteers helped with yoga sessions, art and ethic sessions. The Center is now working on a very low budget...Our intention is to get funding to open a Center by building it on own land, with computers, library, bench, tables, and educational tools for these deprived children...

**Government
School**

Currently, due to limited funds for 2025/26, we have sent 30 students to boarding, having to eliminate our daily scholar program. We like to expand to send more students mainly to boarding in a private school. The most reasonable discounted amount we have negotiated with a private school is total of rupees 50,000 for fee, books, and uniform. Another rupees 10,000 is needed to take care of each child's clothings, hygiene, holidays, tours and outings....
